

GRANITE MASTER GAUGE

Granite Master Gauges come with new innovative design in structural quality, functionality, and accuracy, a total upgrade to satisfy your utmost demand.

- Accuracy** ➤ German DIN 876/00 inspection grade: $2+L/500\mu\text{m}$ & DIN 876/0 : $4+L/250\mu\text{m}$
- Manufacturing** ➤ Germany century-old inheritance technology, china OEM precision hand polishing & grinding, Taiwan precision components & parts manufacturing
- Stone** ➤ China special high grade natural "Jinahchin" black granite, formation from millions of years, and India natural pure black high hardness granite
- Quality** ➤ Developed and designed in Taiwan, inspected and calibrated by Jingstone Calibration Center (JCC). All specifications in accordance to German TUV CERT DIN ISO9001, and ISO/IEC17025 standards
- Guarantee** ➤ Warranty under normal usage: product will never deform in shape. It is stable, non-corrosive, acid resistant, wear-and-tear resistant, and non-magnetic.
- Characteristic** ➤ Specific Gravity : 3000Kg/m^3
Compressive Strength : 245N/mm^2
Elastic Modular : 1.3N/mm^2
Linear Expansion Coefficient : $4.6 \times 10^{-6}/\text{C}^\circ$
Water Absorptivity : $<0.13\%$
Shore Hardness : $>\text{Hs}70\sim 90$
